## **Department of Agriculture & Cooperation**

### **Part - I**

#### **Section 1 :Department's Vision, Mission, Objectives, and Functions**

##### **1. Vision**

To enhance productivity and production of agricultural commodities to ensure the food security of the nation and also to make agriculture a sustainable and viable vocation for livelihood support by 2020.

##### **2. Mission**

To achieve targeted growth rate for agriculture sector with the help of various State Governments and other Departments concerned in the Government of India by enhancing agriculture production and improving income level of all farmers by successful implementation of various new initiatives and agriculture schemes such as National Food Security Mission, Rashtriya Krishi Vikas Yojana, Macro Management of Agriculture, Integrated Scheme on Oilseeds Pulses Oilpalm and Maize (ISOPOM), Extension Reforms etc.

##### **3. Objectives**

1. Increasing Crop production and Productivity thereby ensuring food security and enhanced income level to farmers
2. Incentivizing states to enhance public investment in Agriculture & allied sectors to sustain and maintain capital formation and agriculture infrastructure
3. Diversification in Agriculture for increased income generation
4. Ensuring supply of agricultural inputs for enhanced production and productivity
5. Plant Protection, Quarantine and Residue Management
6. Dissemination of technology / information to farmers
7. Enhancing Soil health and promotion of resource conservation technology for sustainable agriculture
8. Improving credit flow, market infrastructure, empowerment of cooperatives and risk mitigation
9. Maintaining Agricultural statistics to aid policy development

10. Drought Preparedness and Grant of relief under State Disaster Response Fund (SDRF) /National Disaster Response Fund (NDRF)

#### **4. Functions**

1. Endeavoring for adequate and timely supply of inputs and services such as agricultural credit, fertilizers, pesticides, seeds and implements to farmers
2. Administering the National Agriculture Insurance Scheme (NAIS) to provide relief to farmers in the event of crop failure
3. Laying down Minimum Support Prices (MSPs) for select key agricultural commodities to ensure food security in India and remunerative prices for farmers.
4. Assisting the States in the management of drought and undertaking scarcity relief measures
5. Endeavoring to bring about the integrated development of markets for agricultural produce to safeguard the economic interests of the farming community
6. Assisting the State Governments to improve agricultural extension services by adopting new institutional arrangements through the involvement of NGOs, farmers, organizations and agricultural universities
7. Promoting plant protection measures and practices through the dissemination of appropriate information and technology
8. Working towards promoting measures for production of quality seeds and distribution of improved plant varieties
9. Developing suitable strategies for rainfed farming through people's participation for a holistic and integrated development of potential watersheds, and promotion of a farming system approach for augmenting the income and nutritional level of farming Communities.
10. Strengthening the cooperative movement through appropriate policy measures and also through organizations such as the National Cooperative Development Cooperation (NCDC), National Agricultural Cooperative Marketing Federation of India Limited (NAFED) and National Cooperative Union of India (NCUI)

## Part II

### Section 4: Description and definition of success indicators and proposed measurement methodology

The world Food Summit, defined food security as follows: 'Food security exists when all people, at all times, have physical and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy lifestyle.' The same definition has been adopted in this RFD.

The Success Indicators in Section 2 and Section 3 supra range from numbers, to cut-off dates, to time taken to percentage utilisation. The numbers have been kept realistic in keeping with trend analysis of the past and commitments already made by the Department of Agriculture & Cooperation during the current Five Year Plan. All these success indicators are easily measurable as various success indicators can be confirmed from the official records maintained in the Department of Agriculture & Cooperation and its field offices. Only those aspects of various objectives have been kept as success indicators for which the Department of Agriculture can be held accountable. Thus, for various reasons given in Section 5 below, the outputs and outcomes, which depend primarily on State Governments' performance in utilisation of funds and in physical progress under various schemes, have not been included.

Under Objective 1 of Section 2 of the RFD, the target of additional production of 5 million tons is on the assumption of normal monsoon. The target will be lower by 1 million tons on deficiency of every 1.5% in rainfall as compared to long period average. Achievement of additional production target will be calculated from the difference of moving average of pre NFSM and NFSM period.

In respect of a few S.Is (numbering six), the targets/ criteria values have been revised downwards as compared to the previous year's targets due to the following reasons:

S. No.	Details of Success Indicator	Reason for downward revision
1	Objective 3, Action 6: 'No. of projects sanctioned'	In the initial year(s), the targets have been fixed ambitiously and based on the actual experience, now targets have been revised and fixed more realistically.
2	Objective 3, Action 8: 'Area covered in lakh ha. under sprinkler irrigation'	Since Drip Irrigation system is more water saving and productivity enhancing, the target for this has been increased by 1.00 lakh hectares which necessitated reduction under Sprinkler Irrigation, which is 0.45 lakh hectares only.
3	Objective 5, Action 2: 'Number of FFS conducted'	In the initial year(s), the targets have been fixed ambitiously and based on the actual experience, now targets have been revised
4	Objective 5, Action 4: 'Issue of	

	PSC/IP as % of online applications received'	and fixed more realistically.
5	Objective 7, Action 1: 'Area developed for prevention of soil erosion etc.'	Watershed programmes are being funded under Macro Management of Agriculture scheme which is likely to be discontinued after 2012-13. Thus no new Micro watershed will be selected during XII plan, only left over work in ongoing micro watersheds of XI five year plan are to be completed during current year. Because of the above, target has been kept low.
6	Objective 7, Action 2: 'No. of soil moisture conservation structures'	

### **Section-5: Specific performance requirement from other departments that are critical for delivering agreed results**

Agriculture is a State subject. Almost all Centrally Sponsored or Centrally Shared schemes are implemented through States. The performance of the Department of Agriculture & Cooperation therefore largely depends on the States which are independent constitutional entities. Production figures also largely depend on vicissitudes of weather. The role of the Department of Agriculture & Cooperation gets mostly confined to formulation of a comprehensive perspective plan, immediate response to a crisis on account of vagaries of weather, release of funds in a time bound manner, monitoring of progress and evaluation of outcomes. The Department of Agriculture & Cooperation is heavily dependent on various Central Ministries/Organisations also as follows:

<b>Department / Organisation</b>	<b>Linkage</b>
Planning Commission	For allocation of requisite funds to ensure unhindered implementation.
Ministry of Water Resources	Creation and utilisation of irrigation potential.
Ministry of Power	Allocation of power from Central Grid to various States.
Department of Fertilizers	Provision of different grades and types of fertilisers as per the farmers requirements from time to time.
Department of Financial Services	Flow of credit to the farmers.

Hence, various physical targets which find place in our Outcome Budget, are thus not controllable fully by the Department of Agriculture and Cooperation. The Department can only pursue the machinery of the State Governments for timely and optimum implementation. Hence, such items have not been included in Section 2 and 3 for the reasons given above.

## Section 6: Outcome / Impact of activities of Department / Ministry
